EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William W. Schwarze on 11/20/03.

The application has been amended as follows:

Claim 9, line 1, the phrase "which further comprises" has been amended to "wherein".

Claim 9, line 2, after the phrase "of wiping the treating skin" the word "occurs" has been inserted.

Claim 10, line 1, the number "8" has been amended to "9".

The following is an examiner's statement of reasons for allowance:

The reason for allowance of the claims is the inclusion of allowing the applied solution containing at least 15% up to saturation concentration of salicylic acid to dry on the skin, and wiping the treated skin after the applied solution has dried to remove residue from the applied solution.

The cited prior art teaches using salicylic acid in the range overlapping the claimed range, nonetheless, the cited prior art does not teach allowing the solution to remain on the surface of the skin for a time sufficient to produce a chemical peel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
